

Dear parents

I am a fourth year student from Nottingham Trent university, completing my Primary Education degree. My final placement is commencing in year 1/2 and I will be working with your children until next term.

I have had a range of classroom experiences ranging from EYFS to year 5 and have worked all over Nottinghamshire. These were all very eye opening and demonstrated how different classroom structures work for the range of needs within a classroom.

Before my degree I trained as a nanny on a 2-year residential course where I feel I developed the confidence to become a primary school teacher.

I will be supporting the class with their learning in all subjects and working alongside Mrs Guyler and Mrs Wragg for a few weeks before teaching whole class lessons and taking the role as a class teacher.

I am looking forward to getting to know the class as I have heard some marvelous things about them. I am very excited to start to build our castles and further our topic of castles and dragons.

I look forward to working with you and your children and if you have any questions or would like to have a chat, feel free to come and say hello.

Kind regards

Miss Saunders
