about the Inspire online 'Global Beatz' project mainly targeted to the steel pan students that I was working with at Burton Joyce school.

**The Global Beatz online learning sessions are FREE! as they are fully funded by Inspire Culture, Learning, Libraries. No instruments are needed to take part.**

**For safeguarding purposes, the project requires a parent/ guardian to register directly for the project and to provide the responsible adult's email address for all correspondence including sending and responding to session tasks and feedback.**

**After registering, weekly learning content will be sent by email until the end of term with tutor feedback / support via email.**

**There is an additional option of online live zoom sessions that would require additional parental consent for safeguarding purposes.**

**The learning content will require online internet access to complete some of the tasks.**

**Anyone interested in taking part should email [artbeatcontact@gmail.com](mailto:artbeatcontact@gmail.com) with the subject 'Global Beatz Burton Joyce' for more information. and please provide:**

**Name of student**

**Age of student**

**Was the student previously a member of the Burton Joyce steel pan group**

**YES / NO**

**Name of school**

**Full name of parent/ guardian**

**An adult email address for all correspondence**

**Contact number**

**Note - a parent/ guardian will be required to complete a consent to Inspire's safeguarding and GDPR policies which will be sent out after registering interest.**

Kind regards

Nikki Kemp
