## Session Logs Booklet

Aiming to raise attainment in maths with self-paced apps

## Monitoring Pupil Progress on Paper

This booklet contains 12 session logs, one for each week of the intervention. Completing these session logs to help you to monitor pupil progress.

For each session, complete:

- The name of the person running the session (usually you unless you are away), the date and time that the session took place.
- If the child was present or absent.
- If you gave the child technical support and/or pedagogical support.
- Which maths $m p p(s)$ the child used during the session.
- Any certificates the child achieved during the session.
- Any observations on the child's learning behaviours, including their confidence using the apps (high, low or mixed).

The table below shows an example of a completed session log, where only Pupil 8 was absent, Pupil 2 required technical assistance because the headphone was not working, Pupil 3 required pedagogical assistance due to difficulties completing the quiz, Pupil 4 and 6 received certificates number 2, all the pupils are using Maths 3-5 except Pupil 5 who is using Maths 4-6, Pupil 9 received certificate number 3, and Pupil 10 had to leave session early.

You will need to record the pupil information in the same order. We recommend that you link the iPad number with the pupil's initials. You can use the table below to link the iPad number with the corresponding pupil's initials. Once completed, this table will facilitate your monitoring of pupil process throughout the 12 weeks of the intervention.

## Intervention Weeks

Complete the following schedule and share with your classteacher and/or SENCO to help you keep track of the intervention weeks.

We recommend a Senior Leader observes the intervention at least once during the 12 -week period. This could take place at week 6 , or if they wish to observe the intervention twice, consider this taking place in weeks 4 and 8 .

| week | Date w/c |
| :--- | :--- |
| 1 |  |
| 2 |  |
| 3 |  |
| 4 |  |
| 5 |  |
| 6 |  |
| 7 |  |
| 8 |  |
| 9 | 10 |
| 11 |  |
| 12 |  |

## Task for each week

- Deliver the maths apps to each participating child
- Record pupil progress for each session
- 30 minutes per session
- 4 sessions each week
- Arrange for a Senior Leader to observe the intervention at least once during the 12 -week period using the observation checklist provided.

## End of Intervention

At the end of the intervention you will need to record what we call the stopping point. The stopping point is the last activity that the child completed in the app. You will need to record this in the session log. At the end of the intervention, if a child is absent, their stopping point will be the last activity or certificate they completed.

This will help you to monitor pupil progress with this EEF Promising Project over the longer term if needed. Your SENCO may be interested in filing these session logs for any future cohort needs.
