

Make Your Mark with Treakly!

Treakly is an App which is going to help the planet in many ways. When anyone does 5000 steps on this App a Mangrove Tree is planted in a forest in Madagascar. Let's turn our footsteps into forests. Download Treakly on any device. Join the group 'Carlton Rotary and BJ school'.

That is why the whole Eco Team here at Burton Joyce, are encouraging everyone to walk an extra 5,000 steps. Maybe that is by going on a walk, a run or playing a sport. Ask your parents to download it onto their phone and go on a family walk, run or play at the park at the weekend.

This app allows pairing with fit bits or smart watches.
