

Colour by Number Bonds - Bonds to 100

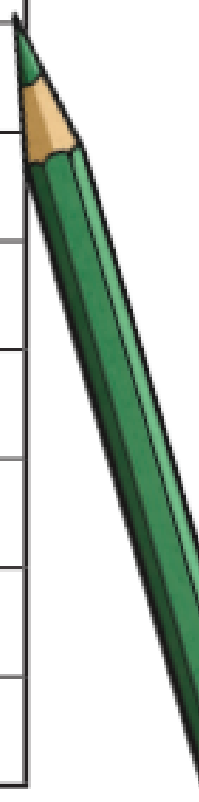

We are going to practise your number bonds to 100. Simply colour in any number bonds which appear next to each other horizontally (use a yellow colouring pencil or felt-tip pen, if you have it). Once you have found all of the number bonds, a shape will be revealed.

The first one is done for you. $40 + 60 = 100$, so those squares have been coloured in.

32	100	76	55	62	99	78	40	60	35
60	74	46	48	79	11	16	50	50	12
20	81	39	15	64	87	93	68	0	98
69	21	22	85	79	21	47	75	49	17
34	9	0	50	20	80	8	19	33	89
66	18	98	33	67	93	7	80	52	67
100	6	55	45	90	10	44	56	45	90
56	99	1	81	19	25	75	37	63	2
91	9	58	42	49	51	15	85	28	72
30	70	21	79	12	88	0	100	35	65

Twinkl tip: Use your bonds to 10 to help you. Can you find any patterns in the number bonds?
