

## SEND parent voice

We recently sent out a parent voice questionnaire about special educational needs provision in our school. Thank you to those who answered our questions. We will be using your answers to make improvements.

There were some lovely comments, such as:

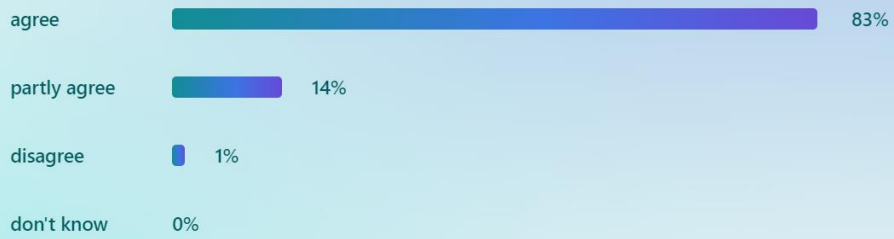

- *Wonderful school!*
- *My child is happy at school and their needs are met.*
- *The support we have received has been excellent.*
- *The school is at the heart of the community and encourages the children to treat each other with respect and kindness.*
- *Everyone in school has been thoroughly supportive.*

What we will do to improve things:

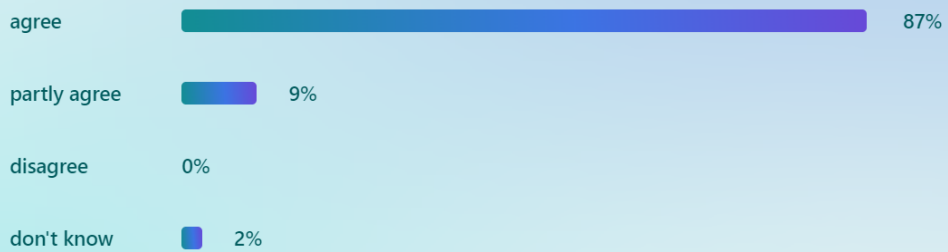

- We will ensure to make it clearer where to find the SEN policy and information report.
- We will ensure that all staff know to signpost parents to the information about support for different types of need on our website.
- We will ensure that we communicate your child's progression clearly at review meetings or parents evening.
- A date will be set for SEN information sessions, although you can contact Mrs Ahearne at any time with any questions or concerns you may have.

## SEND survey results.

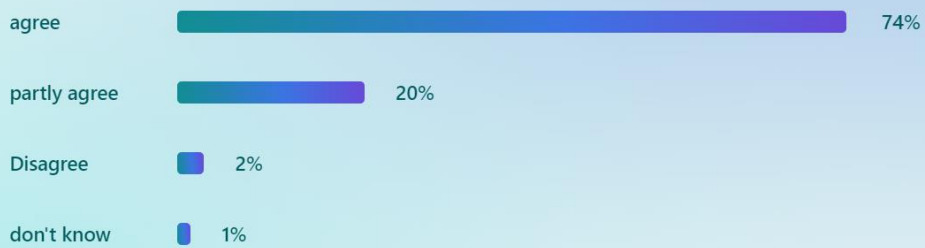

### My child is happy at school

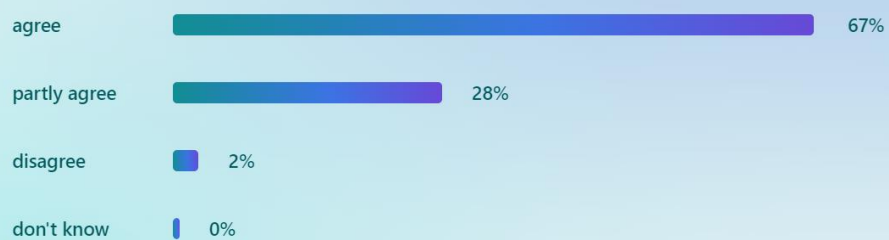

### My child feels safe at school

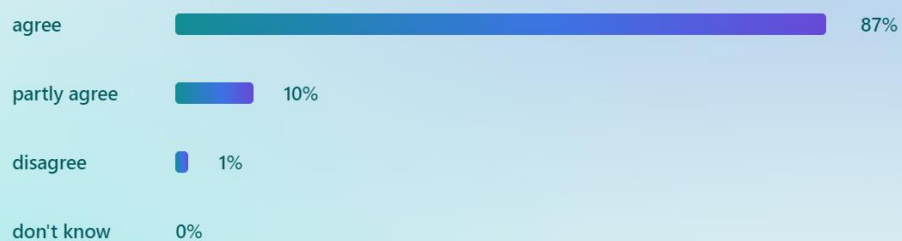

### My child and their needs are supported at school.

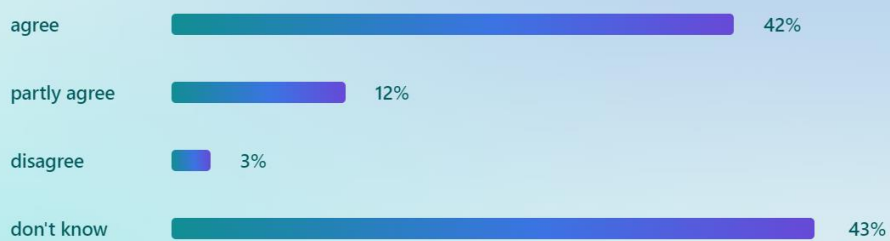

### I understand how well my child is progressing.

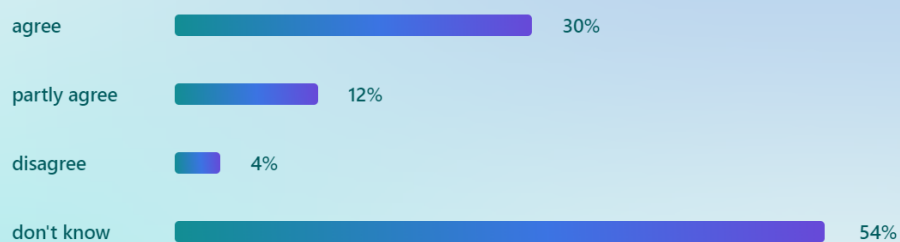

### I can talk to my child's teacher about their progress or any concerns.

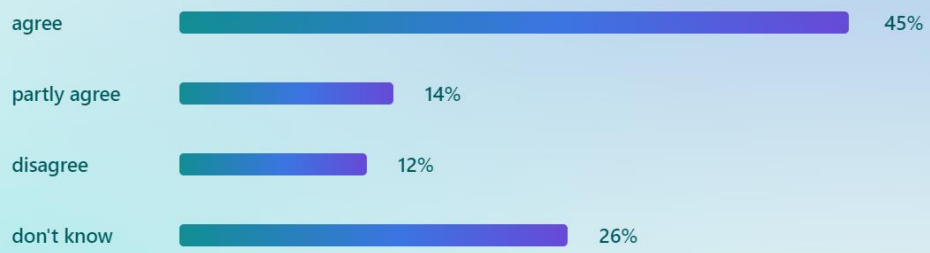

### The school's SEND policy and information report are clear and I can find them on the school website.

### The school website has useful links to SEN information.

### I know how to contact the SENCO if I have any concerns.

### Any issues or concerns I have are addressed by the school.
