

# Animals, Including Humans—Autumn 1

# Year 1/2 Science

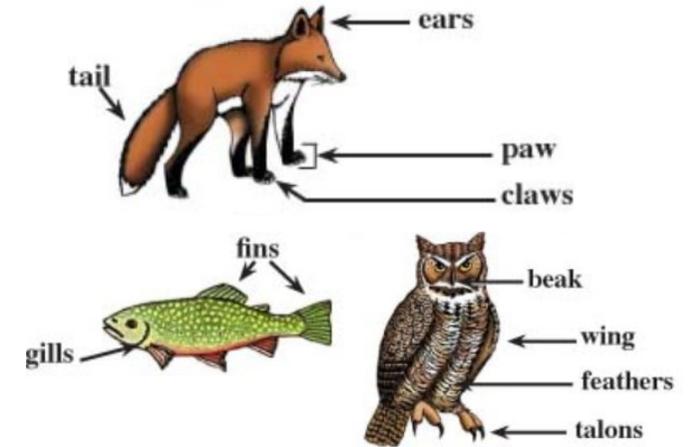

1. Can you name some common animals?

2. Are there different type of animal groups?

<b>Amphibians</b>		Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin.
<b>Birds</b>		All birds have a beak, two legs, feathers and wings.
<b>Fish</b>		Fish live and breathe under water. They have scaly skin, fins to help them swim and they breathe through gills.
<b>Mammals</b>		Mammals are animals that breathe air, grow hair or fur and feed on their mother's milk as a baby.
<b>Reptiles</b>		All reptiles breathe air. They have scales on their skin and lay eggs.

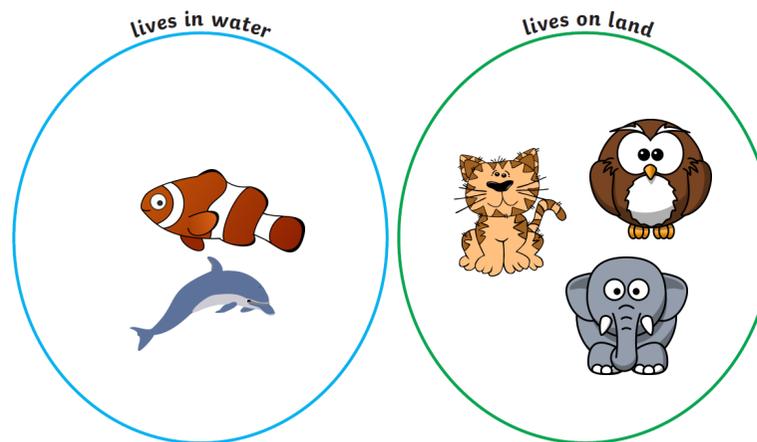

3. What are the different features of animals?

4. Do all animals eat the same food?

<b>carnivore</b>	Animals that mostly eat other animals (meat) are carnivores.
<b>herbivore</b>	Animals that only eat plants are herbivores.
<b>omnivore</b>	Animals that eat both plants and other animals are omnivores.

5. How do we classify animals?

6. How do human bodies differ to animals?
